gm @everyone

The OpenSea saga continues — updates will be made available as soon as I get word back from their team.

Hello @everyone ,

Still a bit in the dark on OpenSea's position to delist MetaBirkins but I wanted to remind everyone that the collection is still live on Rarible. (<https://rarible.com/metabirkinsnft>)

Hello @everyone,

Sent a note to Open(Broken)Sea for the 4th time today, awaiting a response. This will get resolved as I explained in VC earlier today. If you need to buy or sell a MetaBirkin today - please feel free to use the Rarible link below, only buy a collection where you see Mase verified with checkmark. Work has started on a decentralized MetaBirkins exchange where both collections will live 😊
